

**What does the annually elected Moderator do?** The Moderator runs Town Meeting and appoints the Finance Committee. Town Meeting is the legislative body of Andover where the citizens have the power to approve, deny, or modify town spending and local bylaws as proposed either by the executive branch or fellow citizens.

**Why am I running?** To improve and modernize Town Meeting to run more efficiently, fairly, and truly allowing every citizen to be heard. To ensure that Town Meeting serves ALL of its citizens by fully retaining their power & choices as legislators.

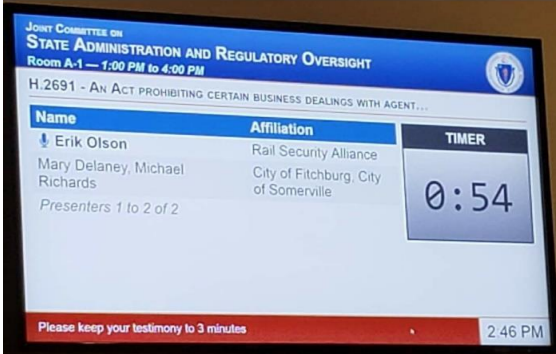

**What are some examples of improvements?** Establishment of a single full set of rules-of-conduct available to all citizens prior to & at the meeting so everyone is on equal standing. Display an electronic digital timer so that every speaker has the same time to speak as every other. Allow citizens to use their cell phones to submit proposed amendments electronically or remotely submit questions on articles in real time.

**What about appointments to the Finance Committee?** Improve the process by interviewing each & every citizen willing to serve, make the process inclusive & transparent, and give priority to the many talented & skilled citizens who have not previously been given an opportunity to serve our town.

Since filling out the Talent Bank form, I have never been contacted to acknowledge its receipt, nor have I been asked about my interest, nor interviewed by Sheila Doherty nor anyone involved with the Finance Committee (3). Until now, I didn't know that the form had been passed along, and since it has, I agree with your analysis that the process needs much improvement.

Noticed the "Timer" on the screens while testifying last Friday at the State House. We need these at Town Meeting in Andover. #SameRulesSameTimeForAll

**I humbly ask for your Vote to make positive change. Thanks, Keith**
